Living in the Cosmic World! This channel tells a story of the strange lights that I have seen since October 2017 in Finland, in region called ***Osthrobothnia. Finland*** is a nice country full of pure nature in Northern Europe, in ***Scandinavia.*** Without no doubt this phenomenon is very special one and it deserves to be shown also for other people who might be interested in real life; what is happening behind the scene. It also tells us that we are not alone and we have to take attention to our environment and the nature around us. Nobody knows how long I will be seeing these cosmic things on the ground or in the sky; it is not up to me! But so far as they will be seen, I will do my best. Welcome to my channel!
